

COMBAT 222

РАСТВОР ДЛЯ ОЧИЩЕНИЯ ПОВЕРХНОСТИ ОТ ПЛЕСЕНИ И ВОДОРОСЛЕЙ

code 4810222

ОПИСАНИЕ

COMBAT 222 «очищающий» специальный раствор для очистки внешней и внутренней поверхности от плесени и грибка до покраски.

COMBAT 222 - может быть использован на небольшие части поверхности, пораженные плесенью для восстановления их первоначального внешнего вида, без дополнительного окрашивания. В этом случае эффект считается временным.

ОСНОВА НАНЕСЕНИЯ

The product can be applied on any type of wall surface affected by the growth of mould, fungi, algae.

The product can also be applied on existing paints and plastic wall coatings.

ТЕХНИЧЕСКИЕ ХАРАКТЕРИСТИКИ

-Composition: highly active chlorine content system, wetting agents, water.

-Mass volume ratio UNI EN ISO 2811-1: 1.14 ± 0.02 kg/l

ПОДГОТОВКА ПОВЕРХНОСТИ

ИНСТРУКЦИИ ПО НАНЕСЕНИЮ

The product can be applied by brush, and is also available in kits for application by spraying.

- The product is ready to be used.

- The product is applied directly onto the surface, left to react for approx. 30 minutes, and the surfaces must then be thoroughly washed with water.

Where the amount of mould and algae is considerable, repeat the treatment several times until the surfaces are completely restored.

- Tools should be cleaned immediately after use with water.

- Indicative spreading rate: 8-10 sq m/l per coat.

КОЛЕРОВКА

ХРАНЕНИЕ
